

XXVth Cologne Minisymposium on Plant Biology

Tuesday – April 2nd, 2019

- 12.30 – 13.15 **Marcus Stetter, UoC, Cologne, Germany**
"The domestication of an ancient grain as model for repeated adaptation"
- 13.15 – 14.00 **Markus Schmid, UPSC, Umea, Sweden**
"Integration of flowering time signals in Arabidopsis thaliana"
- 14.00 – 14.45 **Sebastian Schornack, SLCU, Cambridge, UK**
"Plant-pathogen interactions in Marchantia and related liverworts"
- 14.45 – 15.15 30' Coffee Break
- 15.15 – 16.00 **Kay Schneitz, TUM, Munich, Germany**
"Cell wall stress signaling in Arabidopsis"
- 16.00 – 16.45 **Alex Costa, University of Milan, Italy**
"In vivo calcium dynamics in plant cells: a holistic view"
- 16.45 – 17.00 15' Coffee Break
- 17.00 – 17.45 **Mohammed Bendahmane, RDP, Lyon, France**
"Molecular and genetic control of flower morphogenesis and functions in Arabidopsis and Rose plants"
- 17.45 – 18.30 **Sandra Cortijo, SLCU, Cambridge, UK**
"The same, yet different –variability between genetically identical plants"
- 19.30 **Dinner in "Hellers Brauhaus", Roonstraße 33,
50674 Cologne**

Everyone (postdocs, PhD students....) is welcome to join!

Venue: Lecture Hall 0.024 Cologne Biocenter, University of Cologne, Zùlpicher Str. 47b, 50674 Cologne
