

XIXth Cologne Minisymposium on Plant Biology

Tuesday – September 8th, 2015

Welcome

- 13.00 – 13.45 **Stephan Wawra, Institute of Genetics, University of Cologne**
Analysis of a Piriformospora indica effector reveals insights into plant β -glucan recognition
- 13.45 – 14.30 **Marco Trujillo, Leibniz Institute of Plant Biochemistry, Halle**
Negative feed-back loops – fine tuning signaling networks
- 14.30 – 15.00 Coffee Break
- 15.00 – 15.45 **Xana Rebocho, John Innes Center, Norwich**
Morphogenesis of the snapdragon flower, having a field day with growth and polarity
- 15.45 – 16.30 **Stephan Wenkel, Copenhagen Plant Science Centre, University of Copenhagen**
MicroProteins and Plant Development
- 16.30 – 17.00 Coffee Break
- 17.00 – 17.45 **Alexander Graf, MPIMP, Potsdam-Golm**
The bigger picture: From protein interactions to quantitative analysis of protein complexes
- 19.00 **Dinner in “Hellers Brauhaus”, Roonstraße 33, 50674 Cologne**

Guests are welcome!
