

XXVIth Cologne Minisymposium on Plant Biology

Monday – September 30th, 2019

- 12.30 – 13.15 **Annette Becker, University of Gießen, Germany**
"Evolution of carpel developmental regulators: combining phylogenetics and gene expression analysis"
- 13.15 – 14.00 **Andrew Fleming, University of Sheffield, UK**
"Mechanisms and Models of Stomatal/Mesophyll Form and Function"
- 14.00 – 14.45 **Anahit Galstyan, MIPZ, Cologne, Germany**
*"Dehiscence zone as a developmental timer of explosive pod shatter in *Cardamine hirsuta*"*
- 14.45 – 15.15 **30' Coffee Break**
- 15.15 – 16.00 **Aurélien Boisson-Dernier, University of Cologne, Germany**
"Cell wall integrity mechanisms in tip-growing cells"
- 16.00 – 16.45 **Bart Thomma, WUR, The Netherlands**
"Pathogen-secreted effectors: host subversion and what else?"
- 16.45 – 17.00 **15' Coffee Break**
- 17.00 – 17.45 **Lenka Caisova, University of Leeds, UK**
"Draparnaldia, a chlorophyte model for comparative analyses of terrestrialization and developmental complexity"
- 17.45 – 18.30 **Roman Ulm, University of Geneva, Switzerland**
"Seeing the invisible – perception and signalling of UV-B in plants"
- 19.30 **Dinner in "Hellers Brauhaus", Roonstraße 33, 50674 Cologne**

Everyone (postdocs, PhD students...) is welcome to join!
