

XIIth
Cologne Minisymposium
on Plant Biology
Wednesday – March 14, 2012

SFB 635

Posttranslational control
of protein function

Program

Welcome

- 13.00 – 13.45 **John Mundy, University Copenhagen (DK)**
Genes required for programmed cell death in plant innate immunity
- 13.45 – 14.30 **Barbara Ann Halkier, University Copenhagen (DK)**
tba.
- 14.30 – 15.15 **Andreas Hiltbrunner, ZMBP Tübingen**
Molecular mechanism and evolution of far-red light perception in plants
- 15.15 – 16.00 **Jens Stougaard, University Aarhus (DK)**
Nod factor perception and the role of LysM type receptors
- 16.00 – 16.30 **Coffee Break**
- 16.30 – 17.15 **Laure Guillou, Station Biologique - BP74 Roscoff (F)**
Infections of dinoflagellates by microeukaryote parasites (Alveolata)
- 17.15 – 18.00 **Tina Romeis, Freie University Berlin**
Regulation and function of CDPKs in plant stress signalling
- 18.00 – 18.45 **Uwe Sonnewald, University Erlangen - Nuremberg**
Host targets of viral proteins in plants
- 19.15 **Dinner in "Em Keldenich"**
Guests are welcome!

Venue:

Lecture Hall
Cologne Biocenter
University of Cologne
Zülpicher Str. 47b
50674 Cologne

Get-together:

"Em Keldenich"
Weyertal 47
50937 Köln
